Statement

I am a motivated developer with a passion for creativity and problem solving.

History

■ Manager, EJewelsUSA, Los Angeles

March 2021 - Present

- Organized SEO optimizations which increased sales by **900%**
- Build automation cycles boosting overall productivity
- Create web and email templates using HTML, CSS, & JavaScript

■ Freelance Developer, Remote

August 2017 - Present

- Work well independently and on a team to solve problems
- Strategize with UI/UX teams to meet deadlines
- Test, host, and monitor web apps on several different platforms

■ Asst. Manager, Pyramid Special Jewelry, Los Angeles

July 2016 - December 2020

- Brought forth an excellent understanding of current trends
- Configured SasS products to manage retail/wholesale orders
- Implemented and extended several open-source tools to help with automation and increase productivity

Education

Coding Dojo, Los Angeles

January 2018 - April 2018

Completed a Full Stack Web Developer Program @ Coding Dojo - Los Angeles. Had amazing teachers and met some of the greatest developers on the planet.

Cherished Memory: Worked in groups every morning to understand various methods of data manipulation. For the most part, everyone had a different answer to solve the same problem. Then it was just a matter of efficiency.
